

Info to know about the Rodeo Ready App

Rodeo Ready is an app based system that has taken the place of Rodeo Management System (RMS) that CYRA used in the 2023 season. RMS has been discontinued for future seasons and is no longer an option to use. They have developed the Rodeo Ready app for current and future use. It is not accessible via desktop computer so you will have to enter from your smartphone or tablet, since it is app based. Adding this app is required in order to enter the rodeos. If any members do not have a smartphone or tablet, please contact Jamie Hart to discuss further. *During testing we have found the Android version of the app has some kinks, especially if the Android phone is an older model. If you have an Android phone and you experience issues, contact Jamie Hart directly.

There are many perks to this app and we are excited to try them out this year, including draw orders and results right at your fingertips.

There is a ONE TIME fee, per member added, of \$1.41 which is an app access fee. We apologize for this inconvenience but it is not something that you will have to pay for again, even next year or even if you change divisions.

Your profile is unique to your Apple ID/Android ID so you can access the app with a different device that is already tied to your Apple ID/Android ID.

The person or parent that will be handling the entering of rodeos is the one who should install and set up the profile under their Apple/Android ID. NOTE - it makes no difference who will be paying the entry fees as you will still be able to pay entry fees in person.

Step 1: Visit your app store and download the Rodeo Ready app.

RodeoReady: Rodeo So...
Rodeo Management Software

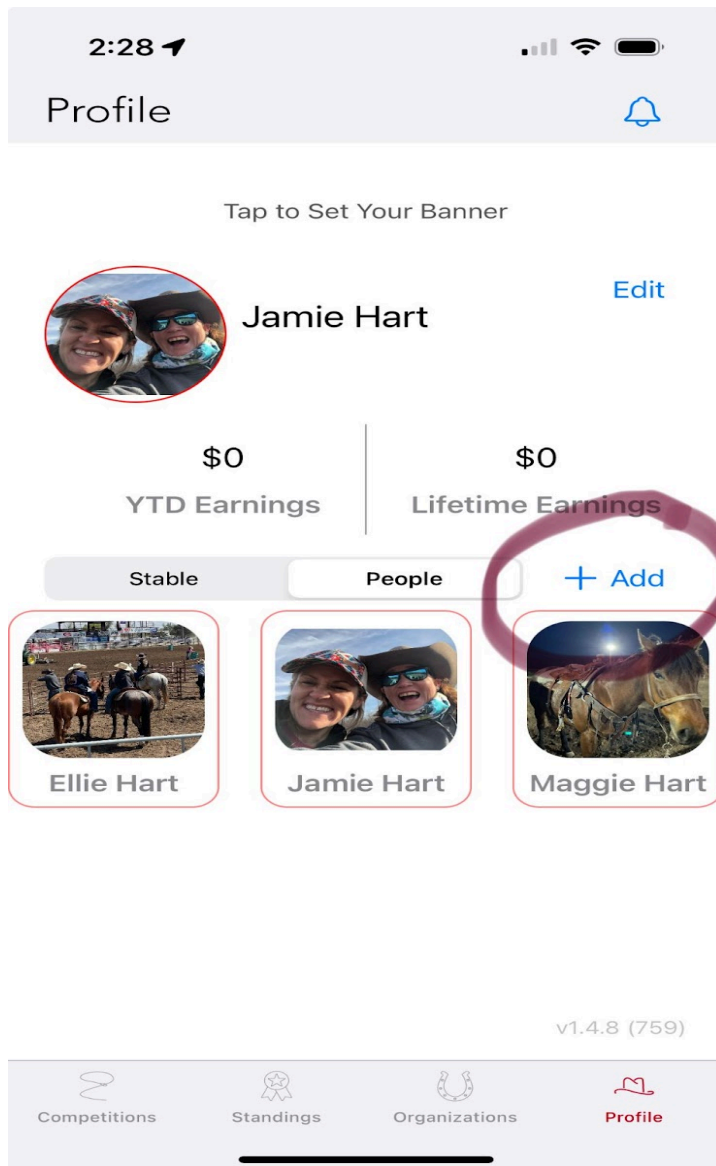

Open

 RodeoReady Ltd.  Sports

Step 2: Create your profile (bottom right hand corner)

You will see a *Stable* and *People* option. Choose *People*, then *+Add*, then *Add Person*. You will want to add all of your kids separately under *People*. For example, I am the profile owner but I have my children listed separately as *People* under my profile. The only fields you are required to enter for each kid is *First name, Last name, Male or Female, Birth Date, Street, City, State, Country, Zip, Phone Number, Email, Prize Payout Method Cheque*. There are some features of the app that will not be used, or are still being explored, so please do not feel like you need to do anything above and beyond adding your child and the required info and applying for membership.

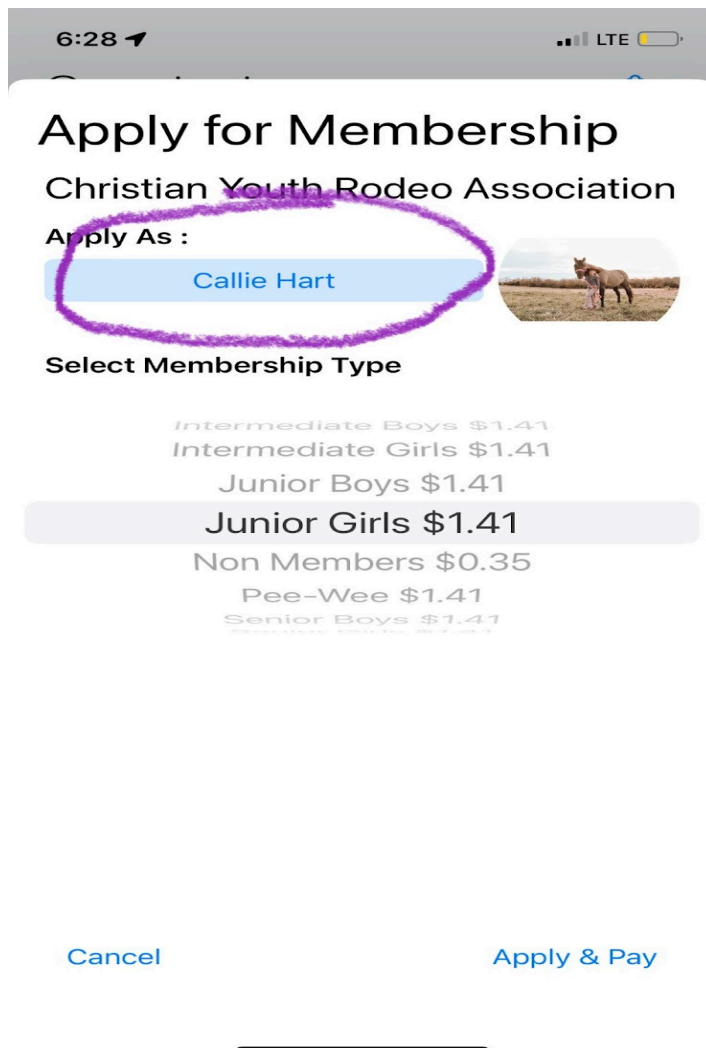

AGAIN, DO NOT ADD A PERSON UNDER MORE THAN ONE APPLE ID PROFILE OR THE SYSTEM WILL THINK IT'S TWO SEPARATE PEOPLE.

Step 3: Join CYRA Kansas Organization

Click on *Organizations* on the bottom toolbar (the horseshoe). Use the search bar at the top by the magnifying glass and search for Christian Youth Rodeo Association. Click Christian Youth Rodeo Association - Kansas.

Choose *Apply for Membership*. **IMPORTANT - You need to change *Apply As* to the correct child then scroll and find their appropriate age division; click *Apply & Pay*; if you have multiple children it is easiest to save your card and it will be ready for when you pay for the app for your next child, but that is not required. This card will not be used to pay for entry fees, you will still be able to pay in person. **Parents, do NOT apply for membership and pay the \$1.41 under your own name, just your kids/members need to apply for membership and pay the \$1.41 fee. **IF YOU ACCIDENTALLY APPLIED FOR MEMBERSHIP FOR YOURSELF, DO NOT TRY AND DELETE IT OUT IT WILL MESS UP YOUR CHILD'S PROFILE.****

STEPS TO ENTER "COMPETITION"

-From the *Competition* view (bottom left corner), click on *Rodeos* in gray at the top right with the magnifying glass. Do NOT click on the CYRA icon on the map because that will not show you all rodeo dates available to enter.

-Filter by Organization and scroll down and select Christian Youth Rodeo Association - Kansas.

-Select the rodeo to enter and click *Register*. IMPORTANT: Change the *Register As* button to the member you are entering.

-Click on *+Add Entry* for all the events needing to be entered. If you accidentally clicked on the wrong event, you can click on the line again and it gives you the option to remove the entry. Once you have selected your correct events, click *Register*.

-For entering Ribbon roping, you will select your role and then it will generate a code for your partner to input when they register. Whoever enters first is the one who will get the code and will need to pass it along to their partner, this will then link you together. You no longer need member numbers for this. The event name is Senior Ribbon Roping but this is the correct event for Intermediate's to enter as well.

-Click *Register* in the bottom right.

-Click *Register & Pay*. You will be given a few options regarding how you will pay, choose **Pay Later** if you want to pay your entries on site without a service charge. If you want to pay online you can, but you will incur a service charge on top of your entry fees. If you pay for one event online, then you will be required to pay for the rest in that particular rodeo online along with the service charge.

-You will NOT receive an email confirming your entries but your entries will show up in the Competition for you to view.

-You will have to enter Saturday & Sunday rodeos separately as they are different "Competitions."

-If you wish to enter a Saturday Exhibition you need to use the link on the CYRA website. This will hopefully be added to the Rodeo Ready entry process eventually.
